The Men Who Know McLaughlin-Buick Best

It is from the man behind the wheel of the McLaughlin-Buick that the most sincere expressions of appreciation come. It is upon the experience and the judgment of the man who knows McLaughlin-Buick that this company becomes the standard by which all other cars are measured—the literal basis of comparison of automobile values.

Year after year, by constant improvement in detail, yet upon the unchanging principles of McLaughlin-Buick construction and quality, McLaughlin-Buick maintains and increases its undisputed lead in automobile quality. It adds to the numbers of those who respect McLaughlin-Buick because they have knowledge and experience of McLaughlin-Buick comfort, beauty, performance and endurance.

Upon the verdict of the McLaughlin-Buick owner, McLaughlin-Buick confidently rests its case.

Claresholm Local News

Mrs. L. Novell is a patient in the local hospital.

Fred Burton has bought a new Ford touring car this week.

Mrs. O. L. Reinecke entertained friends at tea last Saturday.

Open Smith was admitted to the local hospital last Friday.

Hugh Paterson had an operation for tonsilitis, at the local hospital.

D. S. Mitchell had an operation for appendicitis, at the local hospital.

Rev. Geo. Webber was shaking hands with old friends here on Monday.

Babe Nauta of Granum was admitted to the local hospital on Thursday.

Mrs. Martin Melom of Stavely was admitted to the hospital here on Tuesday.

Ethel Simmonds was able to return home from the local hospital on Thursday.

Mrs. Cora Watson of Stavely is a patient in the local hospital since Tuesday.

R. S. McDonald's mother and sister, of Calgary are here visiting this week.

W. O. Wilson has purchased a new Fordson tractor from the Gresham Garage.

J. J. Strang has bought a new Rennier tractor from the Clareholm Garage this week.

Gasoline is cheaper. The sales of Clareholm have reduced the price to 32½ cents per gallon.

Stewart McInally, who has been a patient in the local hospital, was able to return home Wednesday.

O. C. Arnestad attended the Elk picnic conference at Calgary last Friday, representing Clareholm Lodge.

Stavely Elks will put on a carnival in June to raise funds towards building a covered skating rink in Stavely.

Stavely voted 52 to 2 in favor of the Calgary Power Company's contract for electric light and power, on Monday.

Clareholm Odd Fellows, keep in mind to anniversary service on Sunday, May 8th. Meet in the lodge room at 6:30 p.m.

Miss Arline Reinecke, who has been spending the Easter holidays at home, returned to St. Hilda's College, Calgary, on Monday.

Velma Anderson, daughter of Mr. M. Anderson, underwent an operation for appendicitis on Tuesday in the local hospital.

Granum Odd Fellows are holding the anniversary service on the coming Sunday. Clareholm Odd Fellows are planning to join them on that occasion.

Rev. R. W. Dalgleish is spending the week end at Edmonton to be present at the anniversary services of Central United church, his former pastorate.

"Mantrap" with Ernest Torrence, Clara Bow and Percy Frahm, at the Rex theater Friday and Saturday nights this week. A novel by Sinclair Lewis.

Last Sunday, several of Miss Helen Bow's friends called at her home and gave her a surprise, it being her 21st birthday. All wished her many more birthdays. A lovely supper was enjoyed by all who were there.

Representatives from the Elk lodges from Calgary south met at Calgary last Friday to consider holding a big picnic. It was decided to hold it on July 20th at High River. Granted fair weather, it will be the picnic of the season.

The local Elks have purchased the fair grounds from the town to be kept for sports, baseball, race meetings, etc. The Review will be in charge of the fair and taken over the races, sports and dance on May the 27th, arrangements for which had been started by the Park Association.

Mrs. and Mrs. Nick Taitzinger have moved back to Clareholm from Calgary, and are now domiciled in the R. N. Beatty residence.

Chautauqua dates assigned to Clareholm this year are June 16 to 22. These dates are not satisfactory to the local association and an effort is being made to secure more suitable dates.

The Blaize carnival committee has decided to give a good prize for a carnival once in connection with their July carnival. The Review understands that there are seven candidates in the field.

Motorists will be glad to learn that the Blaize Trail south of town is to be straightened. This will shorten the distance to the crossings. The proposed road will run the west side of the railway across the provincial demonstration farm.

A special meeting of the town council was held on Wednesday evening to confer with representatives of the Calgary Power Company, who made an offer for the erection of a hydroelectric plant at the river. We are told that a ratification meeting will be called for next Tuesday evening in the Odd Fellows' hall, to hear and discuss the proposition.

Gordon-Wartton

On April the 27th, 1927, at the home of Mr. and Mrs. J. T. Sammerville, the marriage was solemnized of Mr. Charlie Gordon of Montrose, Forfarshire, Scotland, and Miss Lilian S. Wartton of Victoria, B.C., a native of England. The Rev. W. G. Wartton officiated. Directly after the ceremony a breakfast was served to a few intimate friends.

The bride and bridegroom left on the following morning for Calton, following the morning for Calton.

SOUTHERN FLOODS

Memphis, Tenn., April 26—Swiftly and irresistibly the flood waters of the Mississippi river and its tributaries rolled across the ground yesterday in three states—Arkansas, Mississippi and Louisiana—annihilating additional towns and thousands of acres of farmland.

Driving the homeless before it, death, disease, destruction, destruction here and there, swallowing up a Mississippi National Guard rescue worker near Greenville, an Arkansas planter near Pine Bluff and the captain of a government craft assisting in levee strengthening on the Arkansas, near Gould. With the known death list past the 400 mark, estimates of the total fatalities ranged from 300 to 500.

New Orleans, La., April 27—Deliberate flooding of a vast area in Louisiana in order to save New Orleans from inundation by state and army engineers with the approval of the federal government. Governor Simpson last night issued a proclamation declaring that a public emergency exists and ordering the creation of an artificial lake in the basin of the Mississippi river near Poydras at noon, Friday, April 29.

Memphis, April 28—From the lowlands of southeastern Louisiana to the highlands of central Arkansas and Tennessee, new caravans of refugees joined the stream of refugees of the march in the face of floods or threats of floods. Hundreds moved out of St. Bernard and Plaquemine parishes carrying household and other possessions, and abandoned homes and farms to be temporarily flooded in an effort to save New Orleans from the wall of water bearing down upon it from the upper Mississippi Valley. Others, trudged along empty-handed, unable to escape with their lives.

The army engineers still were doubtful whether the sacrifices to be made by the people of southeastern Louisiana were worth the breaking of the levee at Poydras at noon Friday, and the loosening of vast volumes of flood waters would save the Crescent City.

Our Bread Is Standard

The bread that has stood the test of time is the bread that gains and holds popularity because of its wholesomeness and standard dependability. Such is the reputation of the bread we make and bake every day and send to hundreds of families. Ask your neighbors if our bread is not uniformly good bread.

CLARESHOLM BAKERY

What's the Matter With Hutton's Coal Proposition?

3,000,000 tons of coal.
Company capitalized at \$75,000.00.
\$22,000.00 cash already expended on property.
\$6,000.00 stock to be sold to complete trolley, air shaft and incline R. R., and the Company will then be in a position to place from 75 to 100 tons per day on the market, of Galt coal.
412 acres: vein 4 ft. 6 in. thick. Four other mines have penetrated same vein on four sides. Look into this proposition. I believe it is more than fair, and safe.

Here and There

An honor was conferred upon Captain James Turnbull, C.R.N., commander of the Canadian Pacific steamship *Montana*, recently, when he was appointed Ade-de-Camp to His Majesty King George V.

All goling records were shattered recently when K. Tanaka, local Japanese golfer, was playing on the Canadian Pacific course. "Tanaka" scored a hole in one twice in one round of the eighteen-hole links. The first was obtained at the fifth hole which is 112 yards, and the second at the sixteenth hole, which is 210 yards.

During the month of January of the present year automobile production in Canada increased 9 per cent and about 10 per cent for the corresponding month of last year, being 15,376 cars, as compared with 7,552 for the previous year. Almost 75 per cent of the cars produced were for export, according to the Dominion Bureau of Statistics.

In memory of the late Col. George H. Hall, of Manitoba, who in railway days was a well-known figure in North America, a beautiful memorial porch is being erected over the door of St. John's Church at Whitchurch by the members of the Women's Canadian Press Club. The late Col. Hall died in Montreal on April 16 last.

To replenish depleted British Columbia herds a carload of mountain sheep from the Banff National Park and another of elk from the Wood Buffalo Park are being sent to the west coast, and will be released in the mountains near Spence's Bridge, according to M. B. Jackson, chairman of the Provincial Game Conservation Board.

In order to establish a model settlement just outside Winnipeg, a party of Catholic colonists sailed on the Canadian Pacific line on January 10th. The party, which reached Winnipeg in charge of Father Koenig, of the German Catholic Immigration Association, the party consisted of about 30 families and came under the direction of the Canada Colonization Association.

Included in the programme of new construction in the Manitoba district of the Canadian Pacific, Hall was to have a building of ten standard station houses to be located at Uspala, Touben, Petersfield, Kenney, Alameda, Pettipiece and Dominion City. The section houses will be built at systematic intervals in the Manitoba district while a mechanically operated cleaning plant, with a capacity of 100 tons will be built at Poper Point.

Saint John Nelson Christiananda, describing himself as a Christian Apostolic Preacher, and originating from Southern India, arrived in Canada recently on the Canadian Pacific line from the Far East. He is a "Sadhu" which translated signifies a Saint and is conducting a short mission about the country. He has been preaching through Europe and had visited about twenty countries on that continent. His creed, he asserted, was with all Christian churches without regard to creed or dogma. He said he was welcomed by all religious organizations.

A consignment of Canadian manufactured ice cream shipped from Saint John about the middle of last month featured the name of a hundred tenders to over 400 British buyers by the Hill, P. C. Larkin, Canadian Ice Company, in Canada. In an account of the visit the Canadian representation at the banquet, the Commissioner ordered the cream through the Purity Ice Cream Company, and has also arranged during a 5,000-mile journey across the Atlantic by the Canadian Pacific Express Company. A ton of ice was placed aboard the C. P. liner "Minneapolis" to insure its arriving in perfect condition.

Details of the British Government's exhibit at the World's Patriotic Congress to be held at Ottawa, August 21st to 25th, have been forwarded to the Congress committee.

Heading the list of exhibitors from Great Britain is His Majesty the King, who has signified his desire of exhibiting a pig, while H.R.H. the Prince of Wales is sending along some chickens from his famous farm in Cornhill. The British exhibit will consist of models of the country farms of Lord Dewar, Lord Balfour, and the best known poultry breeders in England. Hon. Mess. Florence Amherst and Sir Dunstan's Hotel for the Blind are also participating in the patriotic exhibition, will include many technical features. Official British delegates to the Congress are Sir Francis Floud, permanent under-secretary to the Ministry of Agriculture and Fisheries, and Percy Francis, Poultry Commissioner to the Ministry of Agriculture.

Nara, Japan—African passengers on the Round-the-World cruise of the Canadian Pacific Liner, *Empress of Scotland* squeezed through a rectangular hole in a pillar just beneath the colossal image of Buddha in the Dabutso Temple here yesterday, thus achieving, according to ancient tradition, the short road to Paradise.

The Board of Control of Toronto have officially accepted the offer of Sir Lester Lester Hartmann, English Baronet, of Mourier's portrait of General John Graves Simcoe, after whom the County of Simcoe is named, and which was presented to the first government at York by Sir John Graves Simcoe, on his first government at York, now Toronto. The painting will be hung in the Toronto City Hall, already adorned with a collection of historical paintings recognized as one of the finest of its kind in America.

"Ave Atque Vale" (Hall and Farewell), echoed through the austere premises of the Canadian Pacific Railway offices Board Room in York, recently, when the Westminster Boys Choir, in token of their appreciation and thanks for the care and the thought indeed, which the Canadian Pacific Railway gave to the young choir, completed their tour of Canada when they called on the C. P. Line Minnesota, sang a part song in Latin for E. W. Beatty, chairman and president of the Company, in whose care they had made their memorable journey.

Their Excellencies the governors-general and the Lieutenant-Governors will receive a warm welcome on the occasion of their first visit officially to Western Canada, the many entries through which they will pass are already preparing to receive the visitors and the thought indeed, which the Canadian Pacific Railway gave to the young choir, completed their tour of Canada when they called on the C. P. Line Minnesota, sang a part song in Latin for E. W. Beatty, chairman and president of the Company, in whose care they had made their memorable journey.

Pioneer Industry Flourishes in Quebec

Upper Left: Boles sap being poured onto snow — a very popular delicacy. Upper Right: Fair visitor enjoying a taste of maple sugar. Lower Left: Boles sap being poured onto snow — a very popular delicacy. Lower Right: Tapping the trees in mid-winter.

On the 15th of April, the first consignment of maple sugar passed through their hands, local distribution and outside sales. The value of the sugar is estimated to points out west. In the main these are to follow the course of the St. Lawrence River, to the Great Lakes, and to the West.

The maple sugar industry is one that has been carried on in Quebec for many years. The syrup and sugar made in this province have established a reputation throughout the world, and the product is one of the most useful pertaining to the farmer, especially since it brings in much needed money at a time when crops are scarce.

A good example of a typical French-Canadian maple sugar factory is the one at L'Assomption, Eastern Townships, Quebec. In this case the trees number 1,400, are tapped in mid-winter by men who work in teams, and the sap is collected in wooden buckets. The trees are tapped at the snow line, which is about three or four feet from the ground, and the sap is collected in the same

can as is used for maple syrup. The method which is gathered is to bring it to a shack in the woods and boil it until all the water evaporates and pure sugar is strained off.

The maple woods in the Eastern Townships section of the province are a beautiful sight at maple sugar time. Citizens of the town take the opportunity to go out into the woods and taste the fresh maple sugar. On these sugaring parties members fill their pockets with the delicious taste of the boiling maple sugar. When the weather is cold the taste is most exquisite delicacy.

The maple sugar is a most instant sugar. When the Canadian government finally makes it a penal offence for the Dominion to adulterate maple sugar, the price of the same will be increased to 15c per pound. On this account the farmer will be brought into more active exploitation, and dollars of dollars will accrue to the farmer. Once any one gets into the sugar business, and especially on the spot of its production, a lifetime habit is formed that is unlikely ever to be broken.

S. C. White Leghorn eggs from stock. 30 cents a dozen. Mrs. G. Malchow, Stavely.

Here and There

The Canadian Pacific purchasing office located at Sicamous, B.C., spent more than \$100,000 in 1926 for Okanagan products. Fifteen years ago such purchases amounted to but \$5,000.

With the fisheries of the province of British Columbia running to \$21,000,000 annual value, half the Canadian total, numbers of salmon are being received from financial interests in Eastern Canada and the United States, with a view to spying out business opportunities.

Until the problem of truck competition is solved satisfactorily all transportation in Canada will suffer, according to T. E. McDonald, Vice-President, Canadian Pacific Express Company, a Toronto citizen, recently before the Transportation Club. He states that under the present transportation regulations the railway and express companies are operating under very unfair conditions.

Another PRICE Suggestion

Maple Nut Cake and Chocolate Layer

THIS unusual combination of Maple Nut Cake will keep fresh for several days, and the Chocolate Layer Cake, made in a little different way, with Dr. Price's CREAM Baking Powder, is a family favorite too.

It is a nut cake which represents a length of a hundred miles in two sections of wire, was inspected under Mr. Macmillan's supervision and will be shipped to this country early in April.

Strawberry Fertilization

Effect of Nitrogenous Fertilizer Applied at Different Times During Life of Plantation

Final results of experiments conducted on the experimental farm at the Dominion Experimental Farm in strawberry fertilization are given in the report for 1925 of the Dominion Horticulturalist, which can now be had free on application to the Publicity Bureau, Ottawa. The results consist of the effect of nitrogenous fertilizer applications made at different times during the life of the plantation. The plots, experiments, and results of three fertilized rows of soil of high fertility. Each treatment or series of which there were seven, was repeated three times so that the yields recorded are for four whole plots, each plot of the same size. The results included: not nitrogen, nitrogen at planting, nitrogen one month after planting, nitrogen one month after planting nitrated 15%, nitrogen September 15, nitrogen September 15 and in full bloom.

The highest yielding series was the one receiving nitrate on September 15 and again just before bloom in the spring. The results of the nitrogen application, a noticeable increase due to the September application, which became progressively more marked as the application approached the fruit and bloom period. It is noted that the early spring application, even on soil of high fertility, has a tendency to cause increase in size of fruit which accounts for the slightly greater yield shown in the tabulation of the report in the series September 15 and before bloom.

Summarizing results as reported in 1921 and 1925 the Dominion Horticulturalist says in brief that nitrate of soda and other soluble salts applied at planting may have an injurious effect; on hand in a fairly high state of fertility nitrate of soda may not cause any injurious effect, but when applied two months after planting; on poor soils when the foliage shows a pale color, nitrate of soda applied not earlier than one month after planting may cause a marked increase in early bloom formation which will result in increased yields the following year; application of nitrate of soda, even on land where nitrogen is applied, may result in a very favorable standpoint when made about September 15 causes a marked increase in yield the following year when nitrogen is used better results have been obtained by applying in quantities the same amount of hand in a form of hand crop, or when applied at planting time by ploughing in rather deeply.

Tradesman Made Mistake

War Cenotaph With Customer But Result was Disastrous

"One of the secrets of success in business," remarked Sir Thomas Lipton, "is to do what a customer's order exactly as given for you may be sure he knows better than you do precisely what his requirements are. A tradesman may err, even with the best of intentions."

"In this instance," he continued, "there was the case of the newly-engaged young man who informed the lady of his choice, aged twenty-four, that he was sending her a 'war memorial' to be placed in the church where he had been born. To her he gave the order to send the lady the bone of one of the finest roses he could procure."

"Here's a good customer," remarked the florist to his assistant, who was packing the flowers, "go put in an extra halo."

"The engagement was broken off."

Only One Ending

Although she has an assortment of hats, she always wears a new one.

She says she thinks she can get along without it.

(That's the man of it.)

She insists that she can't and she's going to get it.

(That's the woman of it.)

He says, "Well, if he knows it."

(That's the man of it.)

She breaks down and weeps.

(That's the woman of it.)

He says, "In."

(That's the end of it.)

Customer: "Is there any fresh fruit?"

Market woman: "I don't say 'they are'."

Customer: "I ain't asked you, is they are?"

Customer: "I'd take a dragon to win that girl."

She says, "Well, wait till you meet her dad."

An astronomer reports that his business is looking up.

W. N. U. 1675

The Age of Perpetual Youth

Hard to Determine At What Age a Man Really Grows Old

When Chief Justice William Mullock was banished to the other side of an island by the man he was, he is held, he stated that although he was celebrating his eighty-third birthday he meant to keep in harness and go on with his work as long as he could and the assurances he now enjoys, that his faculties were at their best.

Sir William Mullock is one of many prominent men in Canada who, after passing the age of eighty, are adding years to their lives.

So many are the instances of it that could be cited, in the law, the clergy, medicine, finance and business, that it appears to be a natural law of human growth that men generally grow so old that they cease from their labors and relinquish their interest in the affairs of the world.

The boys and girls of today deserve to be men and women, before their time, but, having really come to their senses, are growing old. It is important to realize the reason that mode of fashion in dress has much to do with keeping most people forever young—for fashions dress in gossamer such that after being dressed, change.

It is the desire of every community that have set out to improve the quality of the livestock produced in the district through boys and girls, and through making available the best in the way of seed. The value of such work cannot be reckoned alone in dollars. It sets a higher ideal for the people in the districts in all activities.

It is the desire of all these communities that bring the people of the community together to achieve a common purpose. We of the farm have a desire to be called "industrious."

Our young people naturally develop this disposition. We must have no common work to bring us together socially and then work to be better farming as an economic occupation.

With a doubt the people on the farm can come together during the past few years as never in the past has been these communities enterprising and the common ground of common marketing has made possible the most favorable state of affairs.

May it develop—Saskatchewan Farmer.

Gelman states, at the head of Smoky River north of Robson, Jasper National Park, Alberta, is situated in a part of the Rockies, rising in the Rockies, the highest peak in the Rockies. The author is a man after A. P. Coleman, F.R.S., Professor of Geology in the University of Ontario, who visited this region in 1967 and 1968.

A pawnbroker says that many of his customers have been buying quality.

Community Spirit

People Together For Their Good

In the past three or four years there has come to our society a considerable number of community enterprises, most of them of a very commendable character. It would appear that here in Muskoka, community work-co-operatives, are well on the way to mark during the past three or four years.

It is in mind these or four particular industries, I am a director, that has built up an agricultural trust that ranks among the best, yet it has not been able to secure, because of its location, any considerable assistance.

This company has been able to construct in such a way that they can be used for exhibition purposes in the summer, and as a community hall during the winter.

We have in our two communities that have set out to improve the quality of the livestock produced in the district through boys and girls, and through making available the best in the way of seed. The value of such work cannot be reckoned alone in dollars. It sets a higher ideal for the people in the districts in all activities.

Judging Character Of Broadcasters

Cannot Demand on Voices As They Are Often Deceptive

I saw an article in a contemporary the other day in which it discussed the question of whether it is better to let the broadcasters just leave on their voices or character of a man by his voice. The writer expressed doubt whether this was possible, considering that Gladstone had a high pitched voice, though he had what was yet one of the most dominating influences of men of his time.

My recollection is that, though a great deal of care should be exercised, in picking the seeds. It is very important that a representative sample should be chosen, that is, large plump seeds should not be plucked out from the top of the bunch, but should be picked at random from the supply.

In all tests it is recommended that 200 seeds should be used. Place the seeds in a shallow pan or tray, and cover them with a piece of yellow blotting paper, which has been soaked in water. The dish should be large enough to prevent the seeds being crowded. Keep the blotting paper moist at all times, and the seeds should be allowed to stand in the dish, keeping the dish at the temperature of 60 to 70 degrees.

After seven days, make the first count, and then number which have been germinated, and 10 to 12 days later, make a final count. For example, which include wheat, oats, barley and rye, there should not be more than 10 per cent. of any seed that is not germinated.

It is the right to assume that the seed has not germinated, and it is well to have this in mind when sowing a seed, a whistling bird, God, is that the seed has not germinated, and will not germinate. This is due to the hardness of the seeds, but the Dominion Seed Testing Laboratories include these seeds in their test.

Any farmer who wishes to know, may get an examination test made by sending a sample to the Dominion Seed Testing Laboratories either at Calgary or Winnipeg. You receive a report, and if you are not satisfied, you can resow, two sows is sufficient. Any farmer may get three samples tested free of charge.

Casino Manager Was Loser

French Court Ruled Begus Cheque Was Legal Tender For Gambling

Bonus cheques are legal tender when given to a gambling casino to

the extent of "croupier" for the

Court of Cassation, the highest
tribunal, has established this rule in
a test case. A Monsieur Lambert
of Ancey bought chips with cheques
from a gambling house in Paris. He
had the right to withdraw his
money, but he could not do so because
the chips were not legal tender.

The court held that the chips were
not legal tender, severely punished

Bonus cheques are bad cheques, the
court held, but a gambling debt is
irreducible, like a debt to the
Devil. The court said, "The chips
are not legal tender, they are used for
gambling outside the law."

The gambling legislation even stops
collection of a loan or advance made
by a third party when it is known the
money is for gambling."

Germination Test For Seed

From 90 to 95 Per Cent. Germination Is Necessary For Grain Seed

Farmers at the present time are very anxious to ascertain whether their seed is good. It was an old adage that the bad weather last fall. In view of this the following test for germination has been obtained from an authority on agriculture:

In the past three or four years there has come to our society a considerable number of community enterprises, most of them of a very commendable character. It would appear that here in Muskoka, community work-co-operatives, are well on the way to mark during the past three or four years.

It is in mind these or four particular industries, I am a director, that has built up an agricultural trust that ranks among the best, yet it has not been able to secure, because of its location, any considerable assistance.

This company has been able to construct in such a way that they can be used for exhibition purposes in the summer, and as a community hall during the winter.

We have in our two communities that have set out to improve the quality of the livestock produced in the district through boys and girls, and through making available the best in the way of seed. The value of such work cannot be reckoned alone in dollars. It sets a higher ideal for the people in the districts in all activities.

It is the desire of all these communities that bring the people of the community together to achieve a common purpose. We of the farm have a desire to be called "industrious."

England Keeps Tab on Aliens

Ordinary Tourist is Not Affected by Police Regulations

New York papers recently gave prominence to a story that Europe was the scene of the first big race war, Scotland Yard, it is declared, had reshelved its watch for spies at colonial ports and even American residents who might be suspected of being间谍 must have identity cards and report their movements to the police. It was a good yarn, as Sunday newspaper features go, despite the fact that the police practically never touch a foreigner in these seven years. The situation, as explained by Mr. Milton Brown, a London correspondent, who took the trouble to sit at his home in the right, is this: when it was necessary for the safety of the United Kingdom that every foreigner should be tagged, the present system is just a hangover, like so many other things, from the great conflict. The Englishman, who visits England for a few weeks, is not affected at all and will not be. The police rule is that alien visitors apply to the police for an identity card. If they are staying in an extended stay in Great Britain, each citizen of a foreign country sojourning there must supply the nearest police station with three copies of his photograph and a card on which his name, address and the number assigned to him by the police is written. The card is retained in the identity book given him and the others are retained in the files of the police. There is no anonymous, no third degree stuff, nothing to offend anyone's sense of modesty or taste.

Mr. Brown, a police reporter, says that if, for any reason, the police ever want you, they know exactly where you are, and if you are not in the country, so much the better. The police rule is that alien visitors apply to the police for an identity card. If they are staying in an extended stay in Great Britain, each citizen of a foreign country sojourning there must supply the nearest police station with three copies of his photograph and a card on which his name, address and the number assigned to him by the police is written. NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of Moses D. (or G.)
Shaw, late of the Town of
Claresholm, in the Province of
Alberta, Farmer, deceased.

Notice is hereby given that all
persons having claims upon the
estate of the above named Moses
D. (or G.) Shaw, who died on the
21st day of September, A.D. 1922,
are requested to file with the un-
designated Administrator by the
25th day of April, 1927, a full
statement, duly verified, of their
claims and of any securities held
by them and after that date the
Administrator will distribute the
assets of the deceased among the
parties entitled thereto, having

regard only to the claims of which
notice have been brought to his
knowledge.

Dated this 16th day of March,
A.D. 1927.

Official Guardian and Adminis-
trator of the Estate of Mo-
ses D. (or G.) Shaw,
Parliament Buildings,
Edmonton, Alberta

For years I had gas in the
stomach and find doctor of Adler-
ika helped. I now sleep well and
all gas is gone. It also helped my
husband (signed) Mrs. B.
Brinkley, O.S.S. sponsored Alberta-
ika. She uses GAS and often has
asthma attacking to the stomach
relief to the stomach. Stops that full, bloated feeling.
Brings out old waste matter you
never thought was in your system.
Adlerika is wonderful for
chronic constipation. Claresholm
Pharmacy.

MEADOW CREEK NEWS

Truman Matlhy the well known
rancher, had the misfortune to
fall through the ice in hurrying to
catch Billy Oliver to ride to
town Saturday night, and in ex-
tricating him from the hole, when
he damaged his face badly.
But he managed to save the prize
egg he was taking to Claresholm
to test for fertilization, as he
wished to have it hatched by his
neighbor's hen.

IN MEMORIAM

In loving memory of Mrs. William
Mitchell.

In loving memory of my dear
loving mother who passed away
May 1st, 1925.

Two years have gone since that
sad day.

When one we loved was called
away.
God took her home, it was His
will.
Forget her, no, I never will.

Violet Mitchell

Two Makers of Canada

SIR WILLIAM VAN HORNE

LORD STRATHCONA

Among the Canadian books that have come to be recognized as standard works on high places is taken by the series known as "The Masters of Canadian History," a work planned by George N. Morris, of Toronto, in 1904, and comprised two volumes covering Canadian history from Champlain to Macdonald, and from the Atlantic to the Pacific. The series is a collection of significant documents, dealt with by a scholar and writer particularly conversant with his subject, the result being to gather into one confined space of a few volumes a comprehensive view of Canadian history.

With the more than twenty years that have passed since this series was first issued, the lives of the men who have written and discovered in the history of this country, and episodes and characters of past days are much more clearly seen than they previously were. The series, however, has been well received, and since these two books have passed, very wisely decided to issue a new and revised edition of the series. This has been produced under the able editorship of Dr. A. D. MacGregor, who has added a new volume, and will add to the historical value of the work. Each volume has been carefully gone over and revised, and in some cases, while books have been revised, the titles of some of the chapters have been changed.

Perhaps the most important improvement in the new edition is the addition of a new volume, "The Story of the Canadian Pacific and the Canadian Pacific Railway," written by W. W. Vaughan. This volume will receive more attention than was possible when the series first appeared, and will add greatly to the value of the work. Van Horne's life and work will receive a full and complete treatment, and will add to the value of the series. The new volume, "The Story of the Canadian Pacific and the Canadian Pacific Railway," will add greatly to the value of the series. Van Horne was the ideal book for the purpose. They are, of themselves, a rich storehouse of information concerning the founders and builders of the Canadian Pacific. The life of Sir William Van Horne, the Canadian Pacific, the railroad that made Confederation an actual fact. His work will still be an epic of Canadian history and he like Strathcona, the builder of the Canadian Pacific, a man of giant size who may properly be termed "Makers of Canada."

Immigration to Canada in the ten months of the fiscal year ending January 31st, 1926, amounted to 118,199, compared with 93,429 for the same period of 1925-26. This is an increase of 55 per cent. January immigration amounted to 4,184, compared with 2,244 for the preceding January, a gain of 79 per cent. In the immigration from Europe, Britain, 905 from the United States and 2,369 from other countries. During January 1926, 2,297 Canadians who had gone to the United States for temporary or permanent residence returned to Canada, making a total of 50,808 so returned for the ten months of the fiscal year.
